About all the
planets and Pluto

5 facts about The Sun

- 1 The sun is in the center in our solar system
- 2 The sun is a hot ball of gas
- 3 The sunlight takes 8 minutes to reach Earth
- 4 The sun is three miles away from the Earth
- 5 The sun is a star close to our planet

5 facts about Mercury

- 
-
- 1 Mercury is 4.503 billion years old
 - 2 Mercury is the second hottest planet
 - 3 Mercury is the closest planet to the sun
 - 4 It takes 88 days to orbit the sun
 - 5 is a little bit bigger than Earth's moon

5 facts about Venus

- 1 Venus is 4.503 billion years old
- 2 Venus is the third hottest planet
- 3 Venus is the brightest planet except the sun and the moon
- 4 The temperature on Venus is 900d
- 5 Venus is 256.69 million km away from the Earth

5 facts about Earth

- 1 Earth is the only planet with life on it
- 2 Earth is the only planet with water on it
- 3 Earth is the only planet with 195 places
- 4 Earth has more than 1 moon
- 5 Earth is 4.543 billion years old

5 facts about Mars

1 Mars is known as the Red Planet

2 Mars has two moons called Phobos and Deimos

3 In night sky you can see a red star

4 Mars is 4.603 billion years old

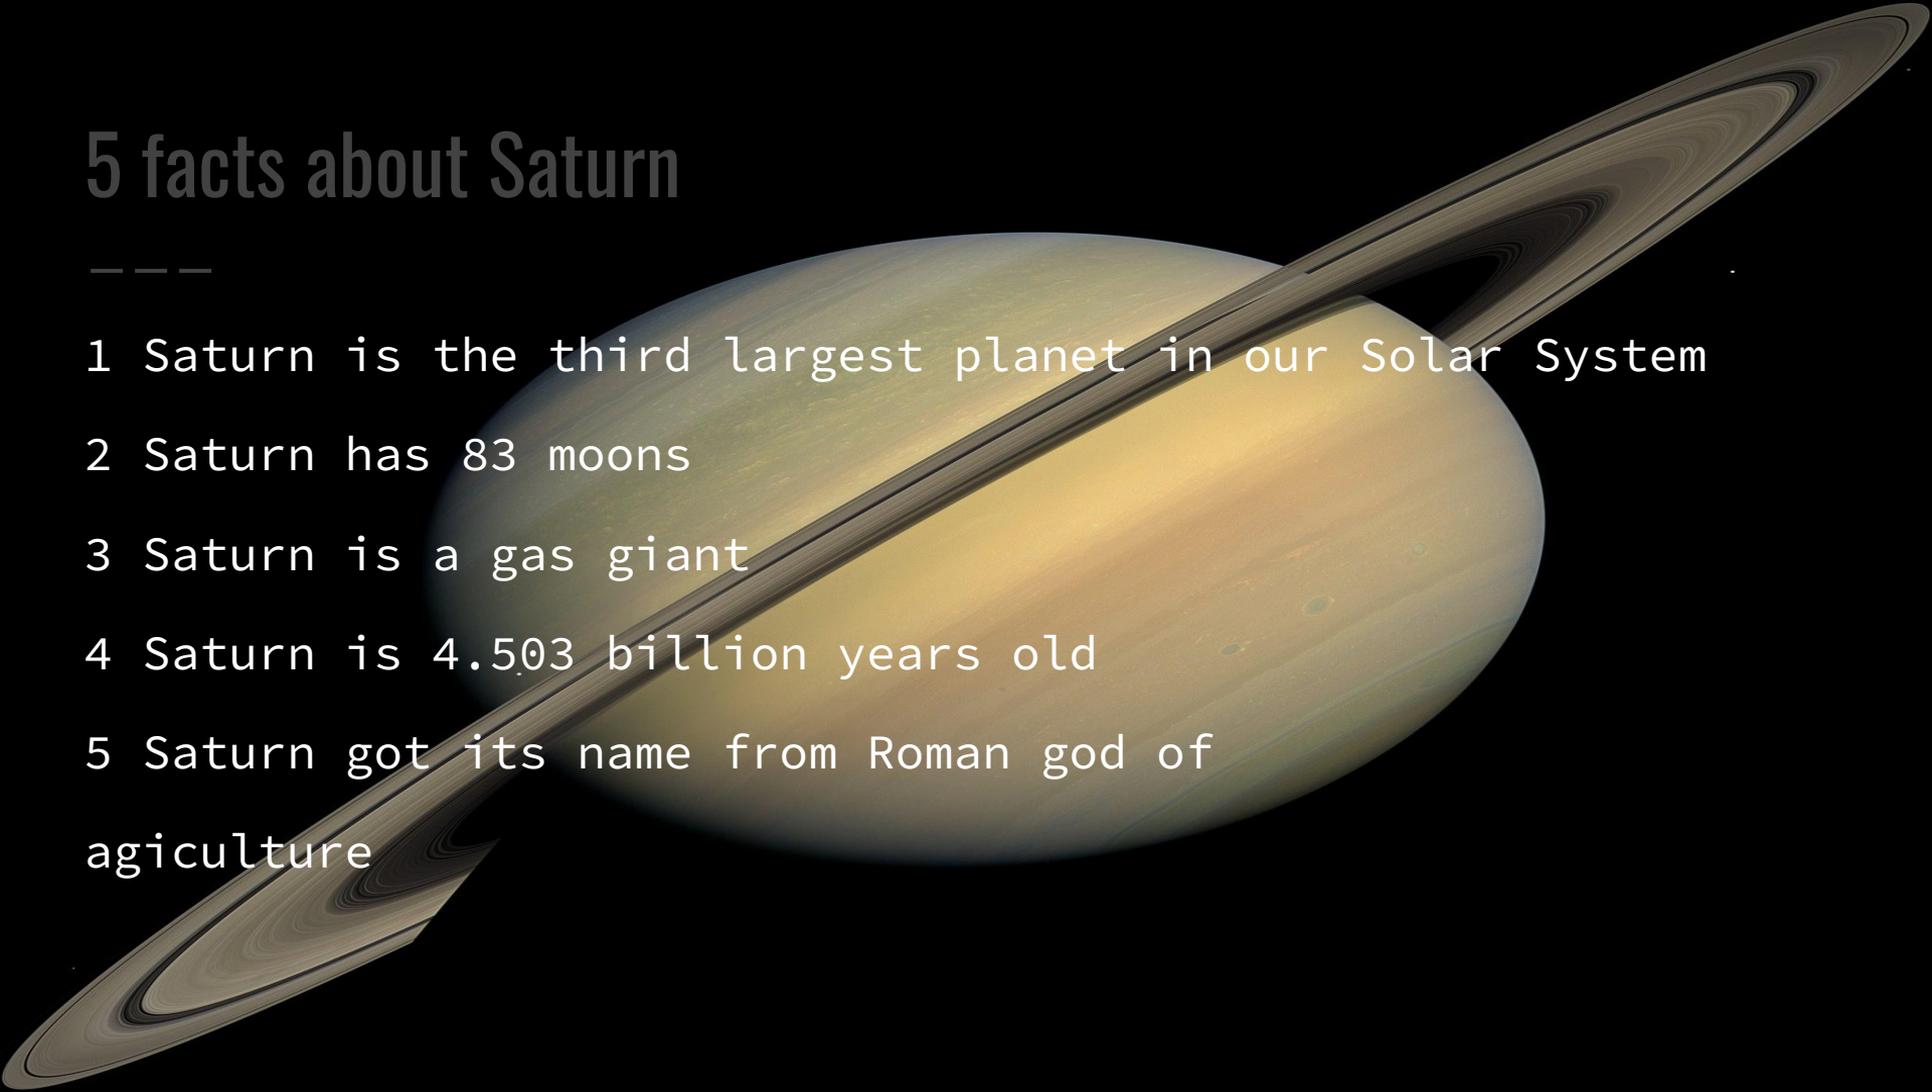

5 Mars is -81 degrees

All about Jupiter

- 1 Jupiter is a gas giant
- 2 Jupiter has a red dot that has a storm
- 3 Jupiter has 80 moons
- 5 Jupiter is 4.603 billion years old

5 facts about Saturn

1 Saturn is the third largest planet in our Solar System

2 Saturn has 83 moons

3 Saturn is a gas giant

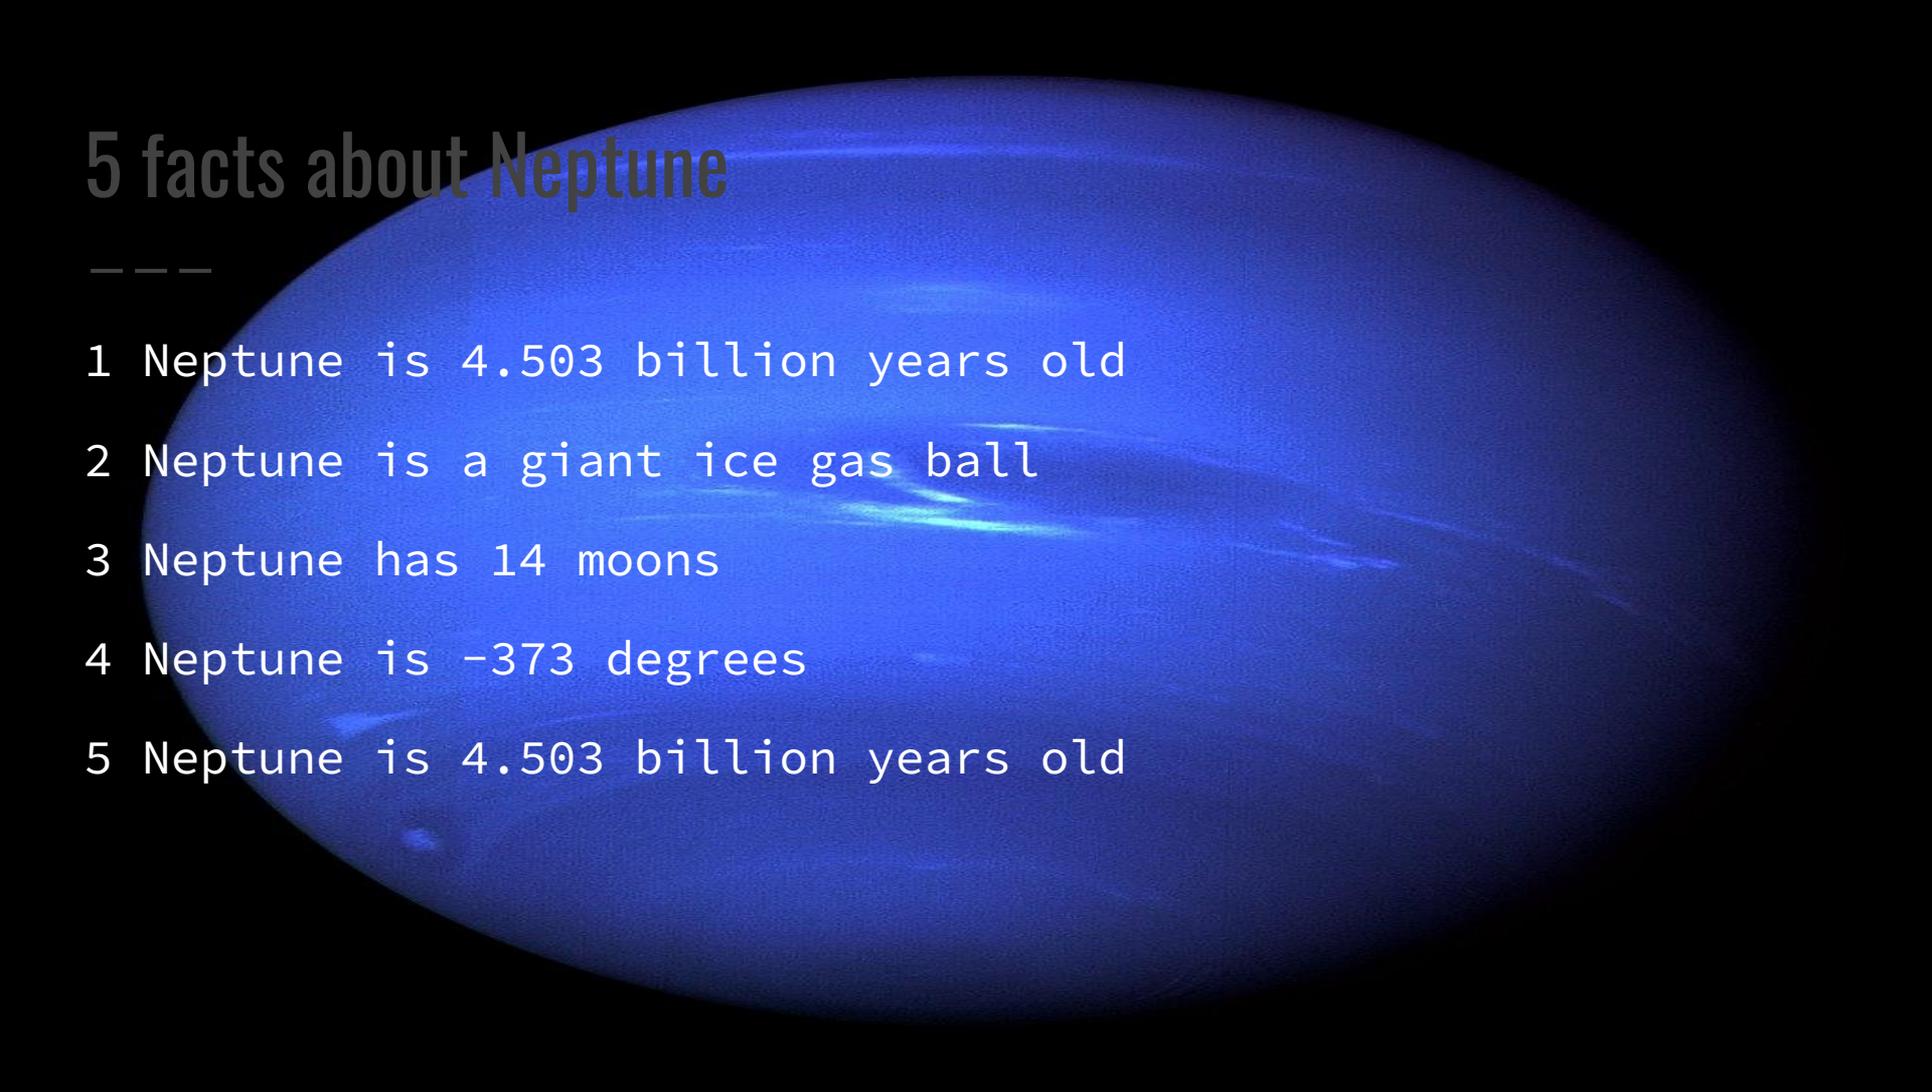

4 Saturn is 4.503 billion years old

5 Saturn got its name from Roman god of agriculture

5 facts about Uranus

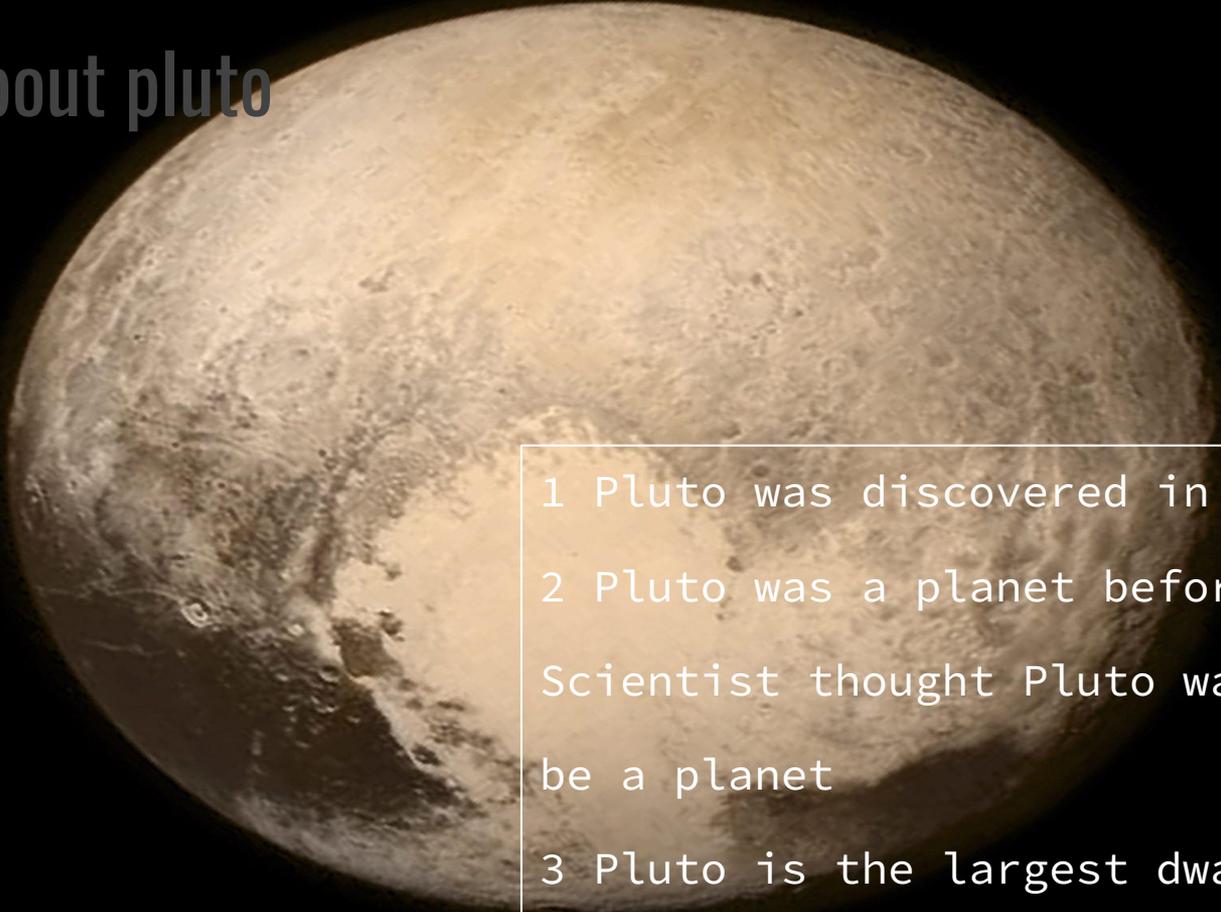

- 1 Uranus has 27 moons
- 2 Uranus is 4.503 billion years old
- 3 Uranus is -90 degrees
- 4 Uranus is turned over in its side
- 5 Uranus has only been visited once

5 facts about Neptune

-
- 1 Neptune is 4.503 billion years old
 - 2 Neptune is a giant ice gas ball
 - 3 Neptune has 14 moons
 - 4 Neptune is -373 degrees
 - 5 Neptune is 4.503 billion years old

5 facts about pluto

- 1 Pluto was discovered in 1930
- 2 Pluto was a planet before
Scientist thought Pluto was far to
be a planet
- 3 Pluto is the largest dwarf planet
- 4 Pluto is one third water

Planet Song
